

DENTAX

Enzyme-Power against plaque and tartar

Dentax is a natural product which provides an increased quantity of enzymes, along with the usual food, which supports the breakdown of tartar and plaque and prevents it from recurring.

The crucial measure to avoid tartar is species-specific, natural nutrition which allows the body to find its natural balance. The composition of saliva has a significant influence on the occurrence of tartar.

Aside from this, hereditary predisposition and irregular positioning of the teeth may be the cause of tartar.
